BIOGRAPHY

Anything but ordinary, topped with a scoop of "inspiration and groovy-licious-ness" is the core of uprising band NovaLAND. They are the most energetic, positive, hilarious group of guys to hit the music scene in a while. What makes them special as individuals and as a whole is that their sole purpose is to bring a message of hope and love through the belief that dreams really do come to life. NovaLAND is composed of five members all from El Paso, TX and Ciudad Juarez, Mexico. Daniel (bass, vocals), Nate (drums), David (lead guitar), and founding brothers Richard (lead vocalist) & Kiki (keys, vocals). They had their encounters and began getting to know each other at church revivals, and plan to bring a revival themselves. Just and as their name suggest they are about venturing into new lands and new turfs.

They began their adventure in 2011 and haven't stopped ever since. They keep excelling with the motivation of knowing that their lyrics and music touch lives and change hearts. Their music is a merely a reflection of living experiences that God has put words and melodies to. Their style is influenced by artist ranging from Hillsong United and Israel Houghton to Maroon 5 and Bruno Mars. Their music is a collaboration between themselves and also with people such as Seth Mosley, Phillip Larue, James Tealey, Juan Otero, and Micah Kuiper. They are currently working on their first album set to be released early of 2014.

There is no doubt that NovaLAND is about bringing a fresh outlook on life and encouraging people everywhere to follow their dreams. It does not matter who you are or where you came from they want you to know that there is a way to a place where dreams are a reality and wishes really do come true. "You're a living canvas. The most valuable piece of art created by God to show his awesomeness."

"Novaland has a heart as big as their home city of El Paso Tx. Richard Garcia lead singer brings his bigger than life personality to the stage and absolutely wows the audience with a sound that's unique and all their own. Amazing vocals and amazing musicians Novaland rocks the stage from start to finish. Novaland came into our festival as the unknown band from El Paso, never having been to the Panhandle before, but left as one of festivals favorite's not only with the audience but also with the other bands and artist. Novaland has a true heart for reaching people with their music and are incredible to work with. Novaland, this band is the real deal and I hope to be able to continue to work with them in the future."
